Seasons

12.a

Read the text. What do Mia, Alexander, Lucas and Emma say about seasons? Which season is each of them talking about?

Preberi besedilo. Kaj pravijo Mia, Alexander, Lucas in Emma o letnih časih? O katerem letnem času govori vsak izmed njih?

Mia

summer

This is my favourite season. It is very hot. Sometimes there are quick showers or rainstorms. There is lots of fruit. Children prefer this season to all other seasons because there is no school and we can take our holidays.

Alexander

winter

This season is usually very cold. It often snows and there are stormy winds. It is good to sit inside in a warm home when the cold wind is blowing outside. Many people like this season because of sports like skating, sledging, skiing or snowboarding.

Lucas

autumn

It's often sunny at the beginning of this season. Trees are full of fruit. But later it's usually cold and windy. It rains a lot and it's often foggy. The leaves of the trees fall.

Emma

spring

After the long cold, wet and foggy days it is warm again. Small green leaves start to grow on trees. You can see lovely flowers everywhere. The weather changes a lot. It often rains. Sometimes it's cloudy but mostly it is warm and sunny.
